# PAdES長期保存プロファイル国際標準化

PDF2.0では要素の定義が列挙されている。

組み合わせについての制約や検証のルールも明確でない

組み合わせが適切でない場合、  
長期間の有効性が担保できない&製品間の相互運用ができない

# PAdES長期保存プロファイル国際標準化

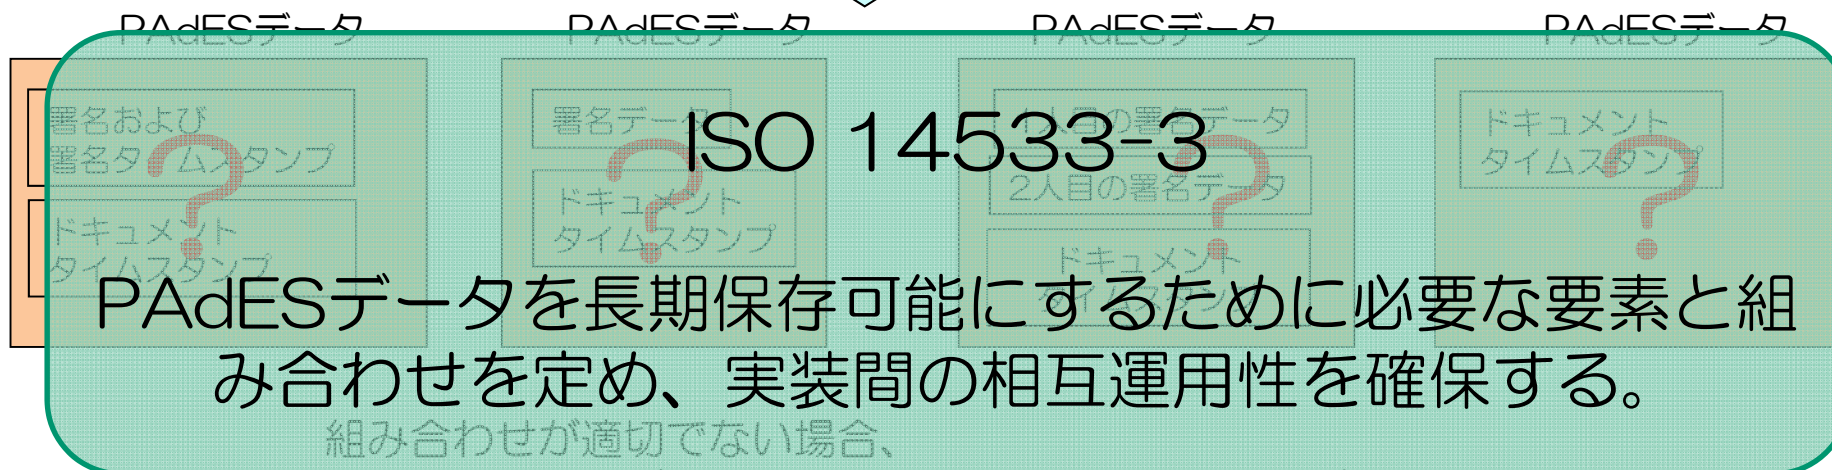

PDF2.0規格では要素の定義が列挙されている。

組み合わせについての制約や検証のルールも明確でない

様々な実装が存在しうる

PAdESデータを長期保存可能にするために必要な要素と組み合わせを定め、実装間の相互運用性を確保する。

組み合わせが適切でない場合、

長期間の有効性が担保できない&製品間の相互運用ができない

# やっと出た！（苦節〇年）

## ISO 32000-2:2017

Document management -- Portable document format -- Part 2: PDF 2.0

ISO 32000-2:2017 specifies a digital form for representing electronic documents to enable users to exchange and view electronic documents independent of the environment in which they were created or the environment in which they are viewed or printed. It is intended for developers of software that creates PDF files (PDF writers), software that reads existing PDF files and (usually) interprets their contents for display (PDF readers), software that reads and displays PDF content and interacts with the computer users to possibly modify and save the PDF file (interactive PDF processors) and PDF products that read and/or write PDF files for a variety of other purposes (PDF processors). (PDF writers and PDF readers are more specialised classifications of interactive PDF processors and all are PDF processors).

ISO 32000-2:2017 does not specify the following:

- specific processes for converting paper or electronic documents to the PDF file format;
- specific technical design, user interface implementation, or operational details of rendering;
- specific physical methods of storing these documents such as media and storage conditions;
- methods for validating the conformance of PDF files or PDF processors;
- required computer hardware and/or operating system.

## ISO 14533-3:2017

Processes, data elements and documents in commerce, industry and administration -- Long term signature profiles -- Part 3: Long term signature profiles for PDF Advanced Electronic Signatures (PAdES)

ISO 14533-3:2017 specifies the elements, among those defined in PDF Advanced Electronic Signatures (PAdES), that enable verification of a digital signature over a long period of time.

It does not give new technical specifications about the digital signature itself, nor new restrictions of usage of the technical specifications about the digital signatures which already exist.
